Item 15.2 CDG1175 Currie Courts Improvements Update for February 2024

Reporting: **Growth & Strategy Manager – Helen Thomas**

SUMMARY:

This report provides an update on activity on project CGD1175, previously referred to as the Community Gym, for February 2024. This includes:

- Resurfacing of tennis and netball courts
- Community communications
- Grant negotiations

DISCUSSION:

Resurfacing of tennis and netball courts

Quotes were received from two suppliers in late February providing pricing and indicative programs for the resurfacing of the tennis and netball courts in the Currie oval precinct. Both quotes demonstrate a capability to complete the required works in a reasonable time frame.

Community communications

Key details from the quotes received is being collated through March as part of the evaluation process. Before a contractor is engaged, feedback and input will be sought from key stakeholders, including the King Island Netball Association and King Island District High School students. Invitations will be sent in mid-March.

Grant negotiations

As reported previously, changing the scope of this project to remove the construction of the gym facility requires negotiation with the grant administrator. A meeting between the Growth & Strategy Manager, Deputy General Manager, and the grant administrator in late-February was positive, with a commitment made by Council to provide an indicative budget and program by mid-March. This will allow the Commonwealth department managing the grant to consider the variation request while Council finalises the procurement process for the resurfacing of the courts.

FINANCIAL IMPLICATIONS:

The activities detailed above are included within approved budgets, except where indicated otherwise.

ATTACHMENTS:

Nil

Recommendation:

That Council receive and note the report for the Currie Courts Improvements project for February 2024.

Moved Cr I Cooke
Cr I Allan

That Council receive and note the report for the Currie Courts Improvements project for February 2024.
