Item 16.2 CDG1175 Currie Courts Improvements - Update January 2024

Reporting: **Growth & Strategy Manager – Helen Thomas**

SUMMARY:

This report provides an update on activity on project CGD1175, previously referred to as the Community Gym, for January 2024. This includes:

- Resurfacing of tennis and netball courts
- Community communications

DISCUSSION:

Resurfacing of tennis and netball courts

During January, two potential suppliers were identified and invited to conduct a physical inspection of the courts in order to inform a quote and program. This visit will be held in early February with quotes expected to be received and a preferred supplier selected before the end of the month.

Suppliers have been asked to quote for a range options, from the minimum requirements of the Community Development Grants Program administrators through to a request from King Island District High School students to consider creating a space for 5-a-side soccer, which perhaps could be accommodated at the courts.

Community communications

Once quotes are received, the project team will reach out to the netball association and the school to get an improved understanding of their requirements ahead of engaging a preferred supplier.

FINANCIAL IMPLICATIONS:

The activities detailed above are included within approved budgets, except where indicated otherwise.

ATTACHMENTS:

Nil

Recommendation:

That Council receive and note the report for the Currie Courts Improvements (previously known as Community Gym & Wellbeing Facility) project for January 2024.
