

Waste Management Thoughts

Is King Island doing a great job with waste?

- Not really

What are the problems?

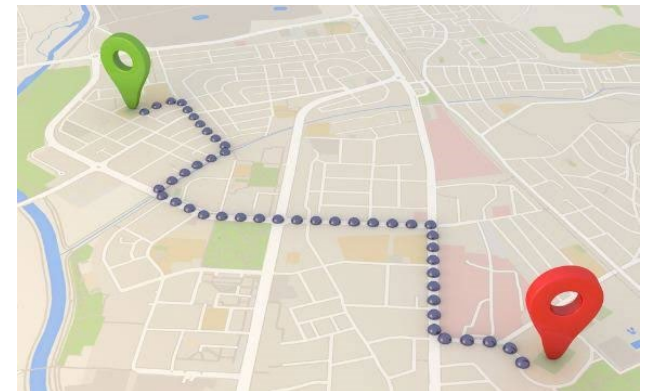

- Litter at the forestry
- Recycling going into the forestry

Problem: Litter at the forestry and ruining the forest

Solutions

- Compactor
- Smaller deeper holes
- Move the tip to another place

What can we recycle on King Island?

- Oil
- Plastic and plastic straws
- Plastic tops
- Cans
- Glass
- Tyres
- Bags

What are the easiest things to recycle on King Island?

- Glass
- Tyres

What could we easily do at home?

- Separate and recycle glass

Recycling Glass: What are the problems?

Problem: It takes ages to crush the bottles.

Solutions

- Buy a bigger glass crusher
- Have a robot or hopper to feed in the bottles

Recycling Glass: What are the problems?

Problem: How do we collect all of the glass

Solutions

- Have collection bins at these places
 - Restaurants
 - The Races
 - The footy
 - The show
 - Clubs
 - The Hotel
 - At the bbqs
 - Beaches
 - Airport
 - At our homes

Recycling Glass: What are the problems?

Problem: The transfer station is closed most of the time.
What do we do with the glass after we separate it?

Solutions

- Open the transfer station all the time
- Have a big bin outside the gate

Recycling Glass: What are the problems?

Problem: How do we make it easy for people to drop off the glass?

Solutions

- Have a special collection truck
- Have big bins around King Island
 - Cheese factory
 - Naracoopa
 - Grassy
 - Currie

Recycling Glass:

Other great ideas

- Have signs with pictures on the bins and collection places
- Mention the green team on the signs

Another great idea

- Have a clean up day at the forestry
